December 2002

Dear Defender of Life,

***"The threat to choice is greater today than it has been in decades."***

(Kate Michelman, president of the National Abortion and Reproductive Rights Action League)

***"Roe V. Wade hangs by a single vote. Tipping the balance of the Supreme Court with one more extremist justice would ensure the loss of abortion rights for generations."***

(Kim Gandy, president of the National Organization for Women)

***"There's no question we're in the toughest fight in the 30 years since I've been with Planned Parenthood."***

(Gloria Feldt, president of Planned Parenthood)

The above words, spoken after the recent elections, should sound like music to the ears of long-suffering pro-lifers who had to endure the pro-abortion cacophony of the Clinton years. The elections certainly did not go entirely as we had hoped—it appears Long Island has lost a pro-life vote in the House of Representatives and the Right to Life Party has lost its ballot line—but the national picture is more auspicious for passing pro-life legislation and appointing pro-life judges than it has been in over a decade. Another plus to the recent election, as expressed by Sandy Rios, president of Concerned Women for America is that **"Surely this must put an end to the notion by establishment Republicans that people who uphold moral values cannot win."**

Your Long Island Coalition for Life has also had a good and productive year. After several delays, we finally hosted Gregg Cunningham's Reproductive Choice Campaign. Tens, if not hundreds, of thousands of motorists and pedestrians saw the reality of "choice" as trucks carrying billboard-sized signs depicting babies killed by first trimester abortions traveled the highways of Long Island and the streets of Manhattan for a week in May.

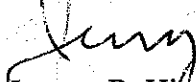

Another special project occurred in September when we had a **quarter of a million** eight-page pro-life inserts mailed throughout Suffolk County in *Suffolk Life*. By the significant telephone response to them we know these inserts were seen and read by many Suffolk residents who, like or not, were told the truth about abortion.

Our ongoing annual Stand up for Life event, several lobbying bus trips to Albany, January 22nd March for Life attendance by over 30 busloads of Long Islanders, monthly publication of our acclaimed *Life News* newsletter, and well-attended monthly general meetings featuring informative pro-life speakers rounded out what was an extremely busy year.

We depend entirely on volunteers and donations to do all that we do and hope to continue doing in the future. I sincerely thank all who have contributed time or treasure during the past year to our work of defending innocent human life. Please continue to help us by using the coupon on the inside back page to volunteer or donate during this season of giving so we may be equipped to continue our efforts in the year ahead.

May God bless you abundantly during this holy time of year.

For His innocents,

Jerome B. Higgins D.V.M.  
Chairman

P.S. Please use the enclosed postage-paid envelope to send the coupon with your donation and/or volunteer commitment as soon as possible. This will help us with planning for next year. Thanks again for your help.

## FEDERAL LEGISLATION

Pro-lifers around the country were elated and strongly encouraged by the results of the November national elections. The control of the U.S. Senate went from pro-abortion Democratic Majority Leader, Thomas Daschle (D-SD) to pro-life Senator Trent Lott (R-Miss.).

Senator Daschle had buried five pro-life bills so that they could not be brought up before the 107<sup>th</sup> Congress ended. Senator Lott intends to bring this legislation before the U.S. Senate in the 108<sup>th</sup> Congress for a vote as quickly as the U.S. House reintroduces and passes it. President George W. Bush has agreed to sign the bills when they reach his desk.

The bills concerned have had a long journey. They are: The Partial-Birth Abortion Ban Act (H. R.4965), The Ban On Human Cloning (H.R.2505), The Unborn Victims of Violence Act (H.R.503), the Child Custody Protection Act (H.R.476) and The Abortion Non-Discrimination Act (H.R.4691).

Senator Thomas Daschle's words: "We are not going away just because we lost. We're going to fight for our beliefs." These words should encourage and reinvigorate pro-lifers to fight, to pray and do all we can to protect and defend the innocent pre-born.

For information on Federal legislation call John Healy at 631-598-0430.

**OREGON'S ASSISTED-SUICIDE LAW**, opposed by pro-life, was approved by Oregon State voters in

1994 and 1997 and is the only one of its kind in the United States. In 2002 Attorney General John Ashcroft unsuccessfully challenged this law. The **Hemlock Society and Compassion in Dying** are two of the groups promoting assisted suicide.

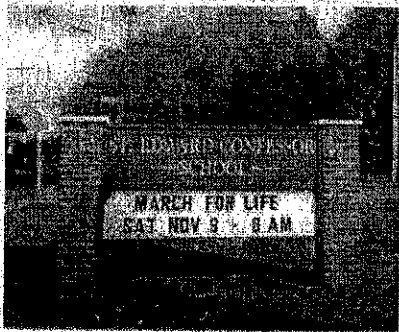

A report of physicians refusing to cooperate is highlighted in the NRTL Religious Outreach Sept./Oct. 2002, under the title: **Oregon HMO Seeks Doctors to Provide Assisted Suicide.**

Excerpts from that article follow:

Kaiser Permanente's Northwest manager in Portland, Oregon sent a memo August 6, 2002 to 829 physicians asking for doctors willing to prescribe suicide drugs to contact Kaiser's ethics department.

"Recently our Ethics Service had a situation where no attending M.D. could be found to assist an eligible member in implementing the law....for three weeks, during which time this person was suffering and actively dying" the memo stated, according to CNS.... The Oregon Medical Association is divided on the issue of assisted suicide, with many doctors who refuse to participate in providing it. Some doctors pointed out that the Kaiser memo demonstrates that a culture of assisted suicide is replacing good medical care in the state, reported the CNS.

"The communication did not explain why the patient's suffering was not adequately treated and relieved for three weeks, or what Kaiser Permanente proposes to do to improve its pain treatment and palliative care," asserted Dr. Gregory Hamilton...a Portland physician and spokesman for Physicians for Compassionate care.

A welcome sign greeted pro-lifers upon arrival at St. Edward the Confessor R.C. Church, Syosset.

Rev. Thomas Fusco and his pro-life committee enthusiastically hosted the Diocesan sponsored Life Mass, Benediction and refreshments and joined the procession to the abortion provider site for prayerful witness.

## HEALTH & SCIENCE REPORT

### FREEDOM OF CHOICE— A PRACTICE IN DECEIT

*"No man who practices deceit shall live within my house. No man who utters lies shall stand before my eyes." Psalm 100 (101)*

Women have been led to believe they have achieved power and standing through 'freedom of choice'; but if it is not an 'informed choice', then the decision 'exploits' the woman. It is incomprehensible that women's groups do not demand complete information from reliable studies for all procedures, referrals and educational programs, especially if the information concerns a woman's life and health (physical, psychological and emotional).

Previously, we reported the American Cancer Society's reluctance to address the abortion/breast cancer connection and other abortion/cancer-related issues. They play down any connection, citing insufficient studies, although 25 out of 31 worldwide studies have reached the 'connection' conclusion. In the U.S. alone, 11 out of 12 studies link abortion and breast cancer. Planned Parenthood, educational facilities and the media also engage in this deceitful practice. Women are suing for information being withheld, and winning! You would think all organizations would be anxious to make even the slightest risks known in order to protect women!

A friend's sorrowful loss through an unexpected ectopic (tubal) pregnancy led us to investigate the ectopic pregnancy connection. When this heartbreaking situation occurs through natural circumstances it is unbearable enough. When it is the result of withheld information spawning an uninformed choice such as an elective abortion, use of contraceptive/abortifacient drugs and devices such as IUDs, it must be devastating. We are frustrated, left to work with women suffering because of the deceit of foundations and organizations that proclaim commitment to women's medical and sociological issues and have generated trust and acceptance by women and society in general without engaging in total honesty. Why is this? Politics? Money?

We offer this information on ectopic pregnancy so that you may better understand this catastrophe. Ectopic means out of place or occurring in an abnormal position or unusual manner or form. We are referring to a fertilized egg that has implanted outside of the uterus. For the most part, when this happens (95% of the time), it settles in the Fallopian tubes and is referred to as a tubal pregnancy. The fertilized egg occasionally implants in the ovary, abdomen or the cervix and is then called a cervical or abdominal pregnancy. Unfortunately, present technology cannot assist this "out of place" implantation to develop into a live birth. There is a lack of nurturing tissue and space within the Fallopian tube. "The Fallopian tubes serve as a conduit for the ejected egg as it travels from the ovary to the uterus. These tubes are about five inches long, are about twice the diameter of a human hair, and are extremely delicate...Conception of a new human being (the fertilization of the egg by a spermatozoon) normally takes place in the Fallopian tube." (Brian Clowes, *The Facts of Life*) If the fertilized egg remains in the tube and begins to grow, the tube will burst, causing severe bleeding, endangering the mother's health and/or life if undetected. Brian Clowes is concerned that "Abortionists may 'abort' a mother who has an ectopic pregnancy at the time, thereby allowing the condition to continue and placing her life in danger." Most ectopic pregnancies are detected due to bleeding and pain. Therefore, maternal deaths are rare.

In the U.S., about 2% of all pregnancies are ectopic. This has increased fivefold since 1970. There has been a 300% increase in ectopic pregnancies in the U.S. since abortion was legalized. In 1970 the incidence was 4.8 per 1,000 live births. By 1980 it was

14.5 per 1,000 births (U.S. Dept. H.H.S.). According to the National Center for Health Statistics, ectopic pregnancies increased from 18,000 in 1970 to 31,000 in 1975, 52,000 in 1980 and 75,000 in 1985. "Among women who had aborted their first pregnancy, there was a 500% increase in subsequent ectopic pregnancies...Tubal pregnancy increased 30% after one abortion and 160% after 2 or more abortions." (Dr. & Mrs. Willke, *Abortion Questions and Answers*) Abortion not only increases the possibility of future ectopic pregnancies, but also can seriously threaten a mother's future fertility.

Risk of ectopic pregnancy is highest for women 35-44 years of age who have had pelvic inflammatory disease, a previous ectopic pregnancy, surgery on a Fallopian tube, scar tissue from previous surgeries, endometriosis, infertility problems or medication to stimulate ovulation. (Beware, college students considering selling your precious eggs. They are precious—that's why fertility centers and research organizations are willing to offer so much money for them!) "Pelvic inflammatory disease (PID) is a result of infection with other VDs and viruses/bacteria such as gonorrhea and E. Coli. There are one million episodes among American women each year, 20% of which result in hospitalization. PID inflames the Fallopian tubes and is a leading cause of ectopic pregnancy." (Clowes)

Some birth control methods can also increase the risk of ectopic pregnancy. If you get pregnant while using progesterone-only oral contraceptives, IUDs, or the "morning after pill", you are more likely to have an ectopic pregnancy. Rarely, birth defects or abnormal growths alter the shape of the Fallopian tubes. ([www.kidshealth.org](http://www.kidshealth.org), reviewed by Serdar Ural, M.D.) "Women using the IUDs are at great risk for serious adverse effects, the most notable are pelvic inflammatory disease (leading many times to sterility), perforation of the uterus, pelvic pain and ectopic pregnancy. Women using IUDs are 1000% more at risk for developing ectopic pregnancies, nearly always end with killing of the preborn or risk of rupture and/or death of the mother if pregnancy continues." (Bogomir M. Kuhar, PharmD, BS Pharm, FASCP) Dr. & Mrs. Willke write that the "Progestasert" brand of IUD appears to be perhaps 10 times more problematic, obviously due to the progesterone content.

Sexual sterilization involves surgically blocking the Fallopian tubes to prevent the ovum and sperm from uniting. "Half of all women who are sterilized have it done postpartum—that is, immediately after having their last baby...Less than 50% of female sterilizations can be reversed, and even if the reversal is successful, the risks of subsequent problems, such as tubal pregnancies are greatly increased...Ectopic pregnancies comprise 4 to 43% of all pregnancies resulting after sterilization, depending upon the method used." (Clowes)

We in no way intend this article as an accusation against any woman who has had or will experience an ectopic pregnancy. We are attempting to offer information that has been deliberately and irresponsibly withheld from women, and may very well have been a cause of suffering and/or depression for them.

Although some medical personnel may term ectopic pregnancy surgery an abortion, the surgery is performed not with the intention of killing the developing child, but to save the mother's life. In most cases, the child is already dead. But even if it is not, there is no way to keep the child alive to develop normally with present technology. Without the surgery, both mother and child will die. The child's death is the secondary effect of life-saving surgery for the mother, as it would be in some cancer situations. "If medical technology were advanced enough to allow transplanting the baby from its pathological location, and placing it into the uterus, then most ethicists would say this should be done. Since this is not possible with present technology, the tiny new baby's life will be lost." (Dr. & Mrs. Willke)

Let us pray for two causes: that those who practice deception will champion truth, and that medical technology will improve so that these babies may be saved.

ATAP is Christian & Evangelical and offers its services as an extension of local churches. Call ATAP, Nesconset, at 631-360-0031

**PRO-LIFE WOMEN IN THE SPOTLIGHT**

**Each day women proclaim for life.** Still, we are especially pleased when women in the spotlight speak the Pro-Life message. The following list, while incomplete, makes interesting conversation.

**Patricia Heaton**, Emmy winner, female lead in TV's *Everybody Loves Raymond*, and *Feminist For Life* Honorary Chair is quoted in *Newsday*, 10/11/02. Patricia Heaton said if she had her way, abortion would be illegal.

**Brita Stream**, Miss Oregon 2002, as a pageant contestant, spoke about the abortion/breast cancer link. Source: *Celebrate Life, ALL*, Sept./Oct. 2002.

**Other pro-life female celebrities include:** model **Kathy Ireland**; actress and *Feminist For Life* Honorary Co-Chair **Margaret Colin**; actress **Moira Kelly**; 1995 Miss Black America California, **Lakita Garth**, and actress **Jennifer O'Neill**.

**P.S.** Many high profile men have spoken out against abortion. Statements by Pro-Life males, i.e. actor Mel Gibson and Redskins star Darrell Green, are encouraging to all.

**PLANNED PARENTHOOD IS THE NATION'S LEADING ABORTION PERFORMER AND PROMOTER**

**PLANNED PARENTHOOD INCOME SOURCES-YOUR TAX DOLLARS AT WORK**

Planned Parenthood (PP) Tax returns for Fiscal year 2000, IRS Form 990, lists the following:

	Total Income	Govt. Grants	Contributions
<b>P.P. Federation of America</b> Washington, D.C.	\$672,600,000	\$202,700,000 (30.1%)	\$189,500,000 (28.2%)
<b>P.P. Nassau County</b> Medical Director: D.L. Rosenfeld M.D. Hempstead, N.Y.	\$ 3,374,028	\$1,461,782 (43.3%)	\$304,890 (9.04%)
<b>P.P. Hudson/Peconic</b> Medical Director: Ivan VanPraagh, M.D. Hawthorne/Smithtown, N.Y.	\$13,611,499	\$3,925,189 (28.8%)	\$2,335,652 (12.2%)

About one-third of P.P.'s income is from our Tax Dollars. Therefore you are urged to:

#1— Demand that your U.S. Senators and House of Representatives Member NOT support Title X, Family Planning subsidies or any other tax monies going to pro-abortion organizations.

#2— Consider, when Holiday & Gift shopping, refusing to purchase products or services of companies that have contributed to P.P., such as: HICKS NURSERY GAP N.Y. TIMES LEVI STRAUSS TANDY (RADIO SHACK/ COMPUTER CITY) ESPERIT DE CORPS WALT DISNEY LIZ CLAIBORNE AMERICANA AT MANHASSET TIFFANY BROOKS BROTHERS GARDEN CITY HOTEL ABSOLUT VODKA LOWENBRAU MILLER BEER GUINNESS SMIRNOFF JACK DANIEL'S DORITOS FRITO LAY ARRID GERBER LIPTON.

**A PRAYER FOR OUR PRESIDENT**  
 On the eve of one of the holiest seasons for Christians and Jews, the **Presidential Prayer Team** is busier than ever. The brainchild of Scottsdale, Arizona sculptor William Hunter, the group came together on the heels of last Fall's terrorist attacks. Its goal; to enlist 2.8 million people (1 percent of the U.S. population) to pray every day for President Bush. At press time more than 1 million people (via the Web site [www.presidentprayerteam.org](http://www.presidentprayerteam.org)) had signed up to be part of the nondenominational, nonpartisan team.

## QUESTIONS & ANSWERS

*Question: On November 5th the American people voted and elected a Republican majority in both the House of Representatives and the Senate. What can the Pro-Life community expect as a result of this election?*

**Answer:** For starters the new Republican majority will push a partial-birth abortion ban through the next Congress, a key Republican leader has promised.

Senator Trent Lott, the Mississippi legislator who will head the Republican majority in the Senate, said that when the new Congress convenes, "We will move the partial-birth abortion bill."

"I will call it up, we will pass it, and the President will sign it," Lott promised during a post-election interview on American Family Radio. "I'm making that commitment; you can write it down."

We would like to acknowledge tremendous effort of pro-lifers who came to campaign for Marilyn O'Grady. Although she did not win, O'Grady received a large percentage of the vote.
