

## YOU'RE INVITED!

"The Planned Parenthood Educators' Seminar: An Inside View" will be the topic when Peter O'Hara addresses the Monday, July 25<sup>th</sup> meeting of the Long Island Coalition for Life. Pete will speak at 8PM and will finish by taking questions from the audience. The meeting will be held on the second floor of St. Regis Council, Knights of Columbus Hall, Rosevale Ave. and Pond Rd., Ronkonkoma. The building is elevator equipped.

For directions call 631-243-1435. The public is invited.

### Beware the Planned Parenthood Organization

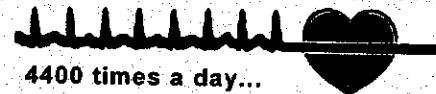

As a reader of *LIFE NEWS* you have noticed that this page is reserved for articles on Planned Parenthood. Since Regina Carbonaro has been writing a most informative series of articles about this organization's historical background it would be redundant to place another article on Planned Parenthood here.

If the names Alexander Graham Bell, Winston Churchill, Calvin Coolidge, Dwight Eisenhower, Harry Truman, Eleanor Roosevelt, and Katherine Hepburn are familiar to you, you would do a disservice to yourself if you do not read this Health & Science Report.

### Speakers Available

The Education Committee of Long Island Coalition for Life is made up of education professionals prepared to address all areas of pro-life concern. Call (631) 243-1435 to have speakers address your meeting, school, religious education class, church, or community organization.

### Announcing two new pro-life efforts:

#### VILLA MARIA GUADALUPE

On 10/2004 The Knights of Columbus dedicated a retreat center in Stamford, Connecticut in honor of the patron saint of the Americas. The hope is that Villa Maria Guadalupe will become a haven of refuge, solace, and consolation; a sanctuary for spiritual growth, understanding and strength.

"In time, Villa Maria Guadalupe will be an international center for all those seeking to be inspired by the culture of life and love; for women facing crisis pregnancies and for those whose pregnancies have ended in tragic circumstances."

"In this great effort we are proud to have as our colleagues the Sisters of Life, who will operate our retreat center. The Sisters of Life are themselves a sign of hope for the coming of a new culture of life."

Source: Carl A. Anderson, *COLUMBIA*, 12/04.

#### PRIESTS FOR LIFE

Fr. Frank Pavone, National Director of Priests for Life, officially announced that he is founding a pro-life community dedicated the formation and training of priests, deacons, brothers and seminarians who will devote themselves fully to the Gospel of Life. This initiative will be based in the Diocese of Amarillo, Texas under the authority of Bishop John W. Yanta, Bishop of Amarillo.

I am excited about supporting Fr. Pavone in venturing forth, with and through the Holy Spirit in the establishment of a Society of Apostolic Life priests and seminarians dedicated to pro-life ministry—an immense need at this time in history" said Bishop Yanta. "The Lord has provided several vacant buildings that once served as a Christian Brothers High School with boarding facilities, a chapel, gym and spacious grounds. The Diocese of Amarillo is happy to make these available (at no cost) to Priests for Life and the proposed Society of Apostolic Life."

## FEDERAL LEGISLATION

### PRESIDENT BUSH THREATENS VETO OF THE "STEM CELL RESEARCH ENHANCEMENT ACT" H.R. 810 PASSED BY THE HOUSE—

Ignoring President George W. Bush's veto threat, the House voted on 5/24/05, to lift limits on embryonic stem cell research. The President called the bill a mistake and said he would veto it. The House approved it by a 238-194 vote, far short of the two-thirds majority that would be needed to override a veto. Nassau/Suffolk Representatives Bishop, Israel, McCarthy and Ackerman voted against the bill. Representative Peter King voted pro-life. The companion bill in the Senate is S.471.

#### Action—Sample Message:

Please vote against S.471 which would allow use of federal funds to destroy embryos from fertility clinics to obtain their stem cells for use in experimentation. Please reply.

**Action: Contact Senators Schumer and Clinton.**

### UMBILICAL CORD PROVIDES HELP—

On 5/24/05, the House passed H.R. 2520 with a 431-1 vote. This bill enables an abundant supply of human (adult) stem cells to be collected and used for both treatment and research without endangering or killing embryos.

### SUPPORT A BAN ON HUMAN CLONING

#### Action--Sample Message:

Please support S.658/H.R.1357 The Ban on Human Cloning. Cloning actually creates an embryo. However, the most common reason used to justify cloning is stem cell extraction which always kills the embryo from which stem cells are extracted. Please oppose destruction of all human life regardless of age or size. Please reply. Thank you.

## NEW YORK STATE LEGISLATION

6/23 is the last day of the 2005 NYS Legislative Session. As of this writing it appears that all the bills which would restrict abortion will die in committee. The good news is that the "Unintended Pregnancy Act" has not passed the Senate and although bill (A.6330) to allow taxpayer funding of embryonic stem cell research has passed the Assembly Health Committee there does not seem to be a strong impetus to pass such legislation in the Senate. However, as I write this column there are still eight days left in this Session. We can only hope that any "June surprise" will be pro-life, not anti-life legislation.

As shown in the Terri Schindler-Schiavo case a new ethic, the "quality of life" ethic is influencing medical decisions in our culture. This is very likely to be a big issue in the near future. In our state a bill, the Family Health Care Decisions Act (S.4296/A.5406) is being promoted heavily by a new coalition of groups called "The Family Decisions Coalition". The Coalition is interested in ensuring that a surrogate's decision on behalf of a patient to end treatment would be protected. However, some of the provisions of the bill would result in involuntary euthanasia—for example, this bill would allow physicians to place Do-Not-Resuscitate orders on patients without their knowledge even though the patient is fully conscious and mentally competent; this bill would allow a private hospital or individual health-care provider to override a decision for life-sustaining treatment under the guise of conscience protection, if the hospital or other provider decides that the patient's life is not worth preserving because it doesn't meet the doctor's quality of life standards; this bill does not have strong "transfer" language which would allow transfer of a patient to another provider where the patient would receive life-saving care safe from being overridden by judicial review, hospital ethics boards, or other institutional policies. Space and my lack of expertise do not permit a complete analysis of this long, complicated bill. It is clear it should be opposed in its current form. What is unclear is whether even amendments to such a bill would make it acceptable.

Following the death of Terri Schindler-Schiavo in Florida, New York legislators introduced a bill (but not voted on as of 6/9/05) to create a legal presumption in favor of assisted nutrition and hydration. This bill, S.4083-A/A.7009-A would create the life-affirming presumption for every patient who lacks capacity to make health care decisions, and allow a narrow set of exceptions such as written instructions to the contrary or when the provision of assisted food and water is not medically possible.

# HEALTH & SCIENCE REPORT

## THE HISTORY OF THE OVERPOPULATION MYTH AND EUGENICS

(Editor's note: in the first three parts we saw the origins of the eugenics movement, the rise of Margaret Sanger and the insidious growth of her creation, Planned Parenthood.)

### PART IV: INTERNATIONAL PLANNED PARENTHOOD

International Planned Parenthood was established in 1948 with monies from the Brush Foundation and the Osborn Family. Jalsevac states, "Planned Parenthood achieved devastating results using the legal challenges, protests, civil disobedience, strong-arm tactics, and sophisticated propaganda campaigns that Sanger and her predecessors had perfected. In 1938, Sweden became the first free nation to permit abortion and to institutionalize PP sex education and family limitation programs. Between 1949 and 1956, abortion was legalized in another 11 European nations, each at the behest of PP. In 1958, various UN agencies began to subsidize PP projects and programs throughout the developed world... One of the most necessary allies needed by PP and the eugenics movement was the US government... the main effort would come from the elite... the first of these men was J.D. Rockefeller III... he funded the creation of the Population Council in 1952... it began telling the countries of the world how to control their populations... these programs helped to drastically increase the supply of contraceptives to underdeveloped countries. Perhaps his most influential role, however was the intense behind the scenes lobbying he and his organization began in order to convince the US government to join the population control forces." He was joined by Hugh Moore, owner of the Dixie Cup Co., who engineered the "Population Bomb" media blitz. According to Jalsevac, "Moore almost single-handedly created a population panic in the US... he used his influence to... help mold the Draper Report of 1959 into the first official US government report to endorse population control in the context of foreign aid." Steven Mosher stated in the *Population Research Institute Review*, Jan/Feb 2003, "With Rockefeller and his colleagues also working behind the scenes to encourage federal intervention, these wealthy men were about to impose their will on the US Congress. It would in turn impose its will on the world." Jalsevac continues, "The US Foreign Assistance Act of 1961... effectively man-

dated that population control was now the basic aim of foreign aid... [Rockefeller and Moore] had led Congress to believe that the growing populations around the world presented a threat to the US national security and, therefore, aid should be given only to those countries that controlled their populations." Mosher stated, "the bill incorporated the use of all US aid programs from education and health to rural developments as methods to be used to build motivation for smaller families through modification of economic and social conditions supportive of the desire for large families." Henry Kissinger's "National Security Study Memorandum 200 stated, "Since population growth is a major determinant of increases in food demand... the allocation of scarce PL480 [food] resources should take account of what steps a country is taking in population control as well as food production... The United States Agency of International Development (USAID) was created in 1966. Its first director was Dr. Reimert Thorolf Ravenholt who believed birth control was the 'key to public safety, freedom from hunger, and development,' and wanted to sterilize at least a quarter of the world's population... he proclaimed public health programs in Africa are 'enormously harmful to African societies when the deaths prevented thereby are not balanced by prevention of a roughly equal number of births.' Dr. Ravenholt collaborated with... the International Planned Parenthood Foundation and the Population Council, giving them funds to carry out his family planning programs in overseas countries with the infrastructures these organizations already had in place... The 'Population Firm's' last and greatest allies were the World Bank and the UN... Sir Julian Huxley, the President of the UN Educational, Scientific and Cultural Organization (UNESCO) stated, 'Thus, even though it is quite true that any radical eugenic policy of controlled human breeding will be for many years politically and psychologically impossible, it will be important for UNESCO to see that the eugenic problem is examined with the greatest care, and that the public mind is informed of the issues at stake so that much is unthinkable may at least become thinkable.'"

In 1967, the United Nations Fund for Population Activities (UNFPA), also called the United Nations Population Fund, was established. International Planned Parenthood Federation (IPPF) was granted full State Status at the UN in 1971 and "was recognized as an international non-governmental associate with UNICEF and the WHO."

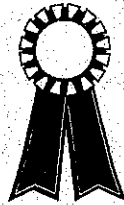

In the final part we will see how Planned Parenthood and its ilk have sown the seeds of their ultimate demise.

## CHAMINADE HIGH SCHOOL PRO-LIFE WEBSITE

There are many good websites for pro-life information, including one developed by a local high school student. Chaminade High School boasts an informative pro-life website written by one of its students. The web address is [chsprolife.tk](http://chsprolife.tk). Be sure to check it out for ideas on how you can build a pro-life website for your high school and also for links to information on various pro-life topics. Don't forget to sign in the site's guestbook!

## THREE THINGS YOU CAN DO TO ADVANCE THE PRO-LIFE EFFORT:

--Begin the Spiritual Adoption program (Pg. 8) at your church or school. If you begin in September you can plan a baby shower or pro-life breakfast for the 9<sup>th</sup> month in May 2006.

--Distribute Voter-Registration Forms. (Pg.7). Voter registration drives at churches are legal. Obtain forms in bulk at your Board of Elections.

--Attend or begin a local pro-life prayer group or have a Mass said: "For an End to Abortion."

## AT THE FAIR

Your Long Island Coalition for Life was represented, for the first time, at the Mineola Fair on May 21st. One gentleman (late 20's) was drawn to our pro-life table and fetal development pictures. He eventually sadly confided that his ex-girlfriend aborted his baby. She didn't tell him she was pregnant until after she had the abortion. It became apparent that no one explained to this father that his anger and remorse over the loss of his child were understandable and not uncommon. He was given support information and literature on how abortion effects men.

If we aren't at your local street fair, we want to be! Thank you for supporting this dynamic outreach.

Call (631) 243-1435 or mail information to:

## Looking toward the 2005 Elections

**Because entry-level positions pave the way for State and Federal office, the pro-life community must:**

- Ask every candidate his/her stand on the "Life Issues" of abortion, parental notification/consent, and stem cell research using human embryos. Speak directly to the candidate or get the information in print.
- Pass the information to other pro-life voters.
- Do not be fooled by recent efforts of pro-abortion candidates to appeal to pro-life voters by statements "designed to reduce abortions" and by offering alternatives to abortion while at the same time maintaining their support of abortion rights.
- Do not allow pro-abortion candidates a photo-op with your group and watch speaking invitations.

**Reminder**—Are all in your household properly registered? New registrants, as well as, name, address and political party changes, must be forwarded to the Board of Elections using the basic Voter Registration Mail-In Form available at every Post Office. Mail early so that all are ready to vote if necessary in a September Primary Race as well as in the November 2005 General Election.

**Encourage pro-lifers to enroll in a political party**--Registrants who do not select a party are enrolled as "Blank" and lose the right to vote in a primary race where supporting a pro-life candidate may be critical. Also, a "Blank" may not sign designating petition enabling pro-life names to be placed on the ballot.

**Through the 2006 elections** the following major political parties will appear on the ballot in NYS: R-Republican, D-Democrat, I-Independence, C-Conservative, and, W-Working Families.

**The following parties no long appear on the ballot through 2006:** The Right to Life, Liberal, Marijuana Reform and Libertarian. These may seek to regain a line of the ballot through the petition process in the 2006 gubernatorial election.

**The following is adapted from 3/2005 Freedom's Alert, a pro-life, pro-family newspaper:**

**The Working Families Party**, a coalition of unions, community groups and activists was formed in 1998. "The goal of the Working Families Party is to more forcefully inject the issues of work-class, middle-class, and poor people—like jobs, health care, education and housing—into the public debate and hold candidates and elected officials accountable on those issues." (www.workingfamiliesparty.com). **Basically, they have taken the place of the Liberal Party in NYS.** (emphasis added)

## **Spiritually "Adopt a Baby" Program**

An excellent "intercessory prayer" activity for the entire parish community, Spiritual Adoption, is a very easy pro-life project.

We know there are pre-born infants in danger of abortion. Therefore, this program invites the community to commit themselves to praying every day for the nine months, praying that the mother and father of an infant receive the strength by God's Spirit to continue to choose life.

### **Where to start?**

Begin the program with a sign-up weekend. Participants sign a pledge card promising to pray every day for a baby they spiritually adopt and for his/her parents. The pledge card suggests the Spiritually Adopted baby be given a name.

### **Monthly Development Report:**

During each of the nine months the parish bulletin updates the child's development. For example:

#### **3<sup>rd</sup> Month Developing Baby:**

Your baby is quite active now. If his/her mother's womb had a window, you could watch your Spiritually Adopted baby squint, swallow, and move his tongue. Your baby can make a tight fist if you touch his/her palm.

Baby obtains the oxygen his body needs through the umbilical cord. The baby you are praying for weighs one ounce.

### **Suggestions for concluding the program:**

A closing Mass or Service, a Communion Breakfast, a "Baby Shower" from which the gifts, diapers, formula can be donated to a nearby crisis pregnancy center.

**NOTE:** Volunteers say that diapers, receiving blankets, Onesies, and bibs are the most needed items.

### **Need help in getting started?**

Many churches and Knights of Columbus Councils have run successful programs. The following are two of many who will assist you.

In Nassau: Raymond and Florence Brady 516-354-6749.

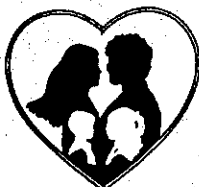

In Suffolk: Joseph Welsh 631-698-4410.

The N.Y.S. SAFE HAVEN law allows the mother of a newborn (thru five days old) to be left at a hospital, fire station, or with any responsible person without prosecution of the mother for abandonment. SAFE HAVEN exists to protect the newborn and calls to the SAFE HAVEN hotline 1-877-796-4673 are anonymous.

Not all stories end with discovery of a live baby. It is obvious that more publicity is needed to promote SAFE HAVEN information in our communities. As with all advertisements the public must see this message over and over again.

Will you help by placing the 4"x 9" cards provided by SAFE HAVEN advocates in public places in your area? Send a SASE (with \$.83 postage for 10 and \$1.06 postage for 20 cards to:

## QUESTION & ANSWER

**Question:** Human Life International has exposed the United States population control policy to a wider audience thru the efforts of Dr. Brian Clowes. What does this policy promote?

**Answer:** December 10th, 2004 was the 30th anniversary of the nefarious document that officially launched the United States on the path of de-populating the poorer countries of the world. This document known as *National Security Study Memorandum 200 (or NSSM-200 for short)* has been the ideological magna carta for American population control policy ever since. The only problem is that most Americans don't even know it exists!

On December 9th HLI held a press conference at the National Press Club in Washington DC to expose this policy to a wider audience. We invited our HLI branch leaders from Nigeria, Latin America, Philippines and India, all countries or regions that have been negatively affected by the U.S. policy. A copy of Dr. Clowes' report on this disastrous policy can be obtained from HLI by calling 1-800-549-LIFE.
