## First Female Justice Retires

The surprise retirement of Sandra Day O'Connor on June 30, 2005 left pro-abortionists totally aghast. Justice O'Connor was a reliable advocate for their side and was expected to occupy her position on the Supreme Court for a number of years to come.

The U.S. Constitution provides that "the President shall nominate and by and with the Advice and Consent of the Senate shall appoint....judges of the Supreme Court..."

The President therefore has the duty and responsibility to name the nominee of his choice.

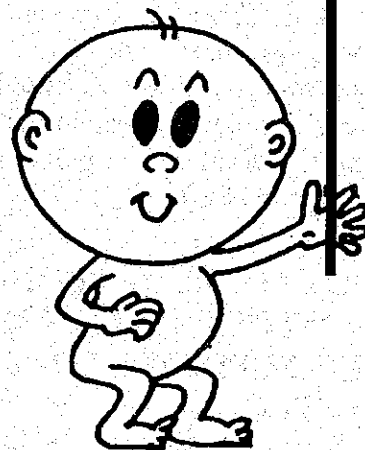

President Bush has made it clear that he will seek to nominate a justice who is intelligent, honest and believes in a strict interpretation of the Constitution.

Pro-abortionists seek a nominee who will pass the litmus test of supporting the 1973 Roe vs. Wade abortion decision which legalized abortion for the entire nine months of a woman's pregnancy.

This nomination is crucial for pro-lifers who seek to return to the unborn their rightful place in society.

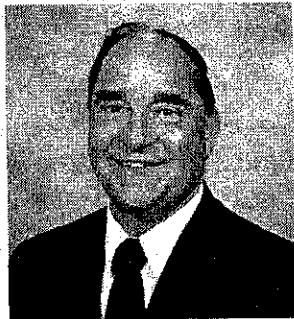

As LIFE NEWS goes to press the possibility of one or more supreme court justice retirement announcements have been rumored. Be vigilant and keep up the pressure.

**President Bush,  
we need solid  
Pro-Life nominees  
for Supreme Court.**

## YOU'RE INVITED!

All are welcome to attend the Long Island Coalition for Life monthly meeting to be held on Monday, August 22nd from 7:45 PM to 10 PM. Our guest speaker will be Brother Lawrence Syriac, S.M. Bro. Syriac is the moderator of the pro-life student group at Chaminade High School in Mineola which, among other activities, has been marching in the annual March for Life since 1982. He will be speak of his experiences working with and motivating pro-life youth.

The meeting will be held at the Joseph Barry Council Knights of Columbus Hall located at 45 Heitz Place, Hicksville. For directions call 631-243-1435.

## WRITERS FOR LIFE

Long time *Life News* readers will recall the Writers for Life project we participated in a number of years ago which was intended to promote and support the writing of letters to the editor to newspapers throughout New York State. Unfortunately that statewide effort could not be sustained.

Now we want, on a local level, to recognize and encourage pro-life letter writing by area residents. We begin this month by recognizing and congratulating the following recent letter writers: **Florence Scarincini, Fr. Paul Driscoll, Msgr. Daniel Hamilton, James J. McDonald, and Bob Sommers** in *Newsday*; **Robert L. Dougherty** and **Thomas E. Dennelly** in *The Long Island Catholic*; and **Kathleen Hunker** in the *Long Island Press*.

Often the Letters-to-the-Editor section is the only place pro-life viewpoints appear in the media. Please keep writing those letters and please send us copies of any that are published.

## LONG ISLAND COALITION FOR LIFE (LICL) ON TV WITH PRO-LIFE TAKE ON UPCOMING SUPREME COURT NOMINEE BATTLE

On 7/5/05 Johanna Cervellino, of the LICL Education Committee, presented the pro-life view of the upcoming battle to control the Supreme Court. Johanna stated on Channel 12 **"abortion rights never should have rested with the Supreme Court"; "women still die from abortions in this country because 90% of all abortions are done in clinics which are not held to the same standard as hospitals"; and, "let the states decide, that's essentially where it should have been decided in the first place".**

A Planned Parenthood official, as expected, spoke for the pro-abortion side.

## NASSAU COUNTY RESIDENTS ALERT

Nassau County Exec. Thomas Suozzi is asking the Nassau County Legislature to allocate \$3 million of the Nassau County surplus to be spent over the next 3 years--\$400,000 annually on homes for single mothers, \$200,000 annually to promote adoption, and, \$400,000 annually on efforts "to help prevent unintended pregnancies".

**Executive Suozzi's proposed effort "to help prevent unintended pregnancies" will help fund Planned Parenthood.**

Planned Parenthood (PP) already receives many thousands of dollars from state and federal grants for its "family planning" programs, which include surgical and chemical abortions and dispensing of abortifacient "contraceptives." Funding PP with more Nassau taxpayer money simply frees up other PP monies to be used to promote abortion and their explicit sexuality programs which themselves lead to unintended pregnancies.

**Action: Contact Executive Suozzi—sample message:**

Dear Mr. Suozzi: We strongly object to your linking together financial support for adoption and unwed mothers with financial support for organizations such as Planned Parenthood which commit abortions and distribute abortifacient "contraceptives" and "contraceptive" devices.

The Planned Parenthood organization aborts over 250,000 babies each year in the U.S. Planned Parenthood works against families by opposing parental notification in case of abortion for a minor. Presently, in Nassau County, a minor can get an abortion without parental notification but must have parental consent for a tattoo.

Please do not give one cent to Planned Parenthood, an organization that corrupts our children and kills the unborn. Give funds only to agencies supporting single mothers and their babies and to adoption agencies who do not support abortion.

## FEDERAL LEGISLATION

### NO TO MILITARY ABORTIONS

On 5/25/05, H.R. 1815, a bill to permit abortions on military facilities was voted down 194-233. We regret that four out of our five congressmen (Congressman Tim Bishop 1st CD, Steve Israel 2nd CD, Carolyn McCarthy 4th CD, and Gary Ackerman 5th CD) voted in favor of providing abortions on military facilities. Pro-life Congressman Peter King voted against abortion on military bases.

### HOUSE BILL MISSES TARGET

On 5/24/05, the House of Representatives by a vote of 238-194 passed H.R. 810 which would pay for research on embryonic stem cells. President Bush has vowed that he will veto H.R. 810 which means that the House would need to come up with 290 votes to nullify the President's veto.

Research on embryonic stem cells always ends with the destruction of the embryo's life. This same bill will shortly come before the U.S. Senate as S. 471. Human embryos need society's protection from destruction. It is also well known that embryonic stem cells have not been tested in humans at all because of the dangers, including frequent formation of tumors. To date not one cure has been achieved using embryonic stem cells, whereas the use of adult stem cells have provided therapeutic benefit in at least 58 different disease conditions.

### HUMAN CLONING DANGER

S. 658 & H.R. 1357 are designed to prohibit all human cloning. Cloning proponents claim there are two types of cloning, reproductive and therapeutic. In reality all cloning is the same, creating an embryo with genetic makeup identical to person from whom the nuclear material is taken.

The only difference is that in "reproductive" cloning the embryo is implanted into a woman's uterus to be born whereas in "therapeutic" cloning the embryo is destroyed to harvest its stem cells. Either process moves human procreation from the setting of committed marital intimacy and into the laboratory. Urge your U.S. Senators and Congressmen to oppose S.658 & H.R. 1357.

## NEW YORK STATE LEGISLATION

### STOP THE MORNING-AFTER PILL

The so-called "morning-after pill" legislation, S.3661/A.116 passed the Senate on 6/22/05. (Except for Senator Balboni, all Nassau/Suffolk Senators voted against this bill. Thank them.) Since this legislation passed the state Assembly in January 2005 it will become law unless the Governor vetoes it. As of 7/11 this bill was not sent to Governor Pataki. They may hold the bill for some time.

**Action:** Call Bill Status Line (800-342-9860) when you read this and if the Governor has not taken action on the bill contact him immediately.

**Sample Message--Dear Gov. Pataki:**

Please veto S.3661/A.116. This bill would allow young girls to obtain high hormone drugs without parental knowledge and without physician oversight. I am also greatly concerned because emergency contraception can terminate the life of an early developing human embryo by preventing implantation. It would be irresponsible to approve sale of the "morning-after pill" over the counter when over the counter sale of this drug has not been approved by the FDA. Please respond.

## HEALTH & SCIENCE REPORT

### THE HISTORY OF THE OVERPOPULATION MYTH AND EUGENICS

(Editor's note: This is the final installment of a five part series detailing the eugenicist origins and effects of the Planned Parenthood organization and affiliated worldwide population control agencies.)

#### PART V: POPULATION CONTROL—THE EUGENICISTS' SUCCESS & FAILURE

"As part of its new privileged position, International Planned Parenthood Federation could now sponsor projects with the financial backing of the World Bank... With Lyndon Johnson's urging, the World Bank quickly followed the US in making population control the main goal of its foreign aid. It began forcing underdeveloped nations to accept family planning (birth reduction) programs if they wished to keep their loans, and it began to provide loans for new family planning and population reduction projects... As the Population Firm continues to grow today, much of its financial support comes through a small consortium of some of the most influential and wealthy men in the world. These men now put more funds towards population control than the US government... men such as Bill Gates, Warren Buffet and Ted Turner... In America the top contributors to abortion and reproductive rights organizations... include the Bill and Melinda Gates Foundation, the David and Lucille Packard Foundation, the William and Flora Hewlett Foundation, the Ford Foundation, The Mellon Foundation and the Turner Foundation. Almost all of these same foundations have joined the... Rockefeller Foundation... and many other organizations such as the World Health Organization and United Nations Fund for Population Activities in providing large amounts of financial support for International Planned Parenthood... Planned Parenthood officials have served in high-ranking positions in many of the important organizations of the Population Firm and have developed a complex system of networking and political leverage that gives the organization extraordinary international clout...

Recent rapid scientific advances have produced amazing new biotechnologies and have led to experimentation in human cloning, stem cell research, embryo selection, and various reproductive technologies.

These new technologies have presented the Population Firm with far more effective and far less obvious methods for fulfilling their eugenic goals... processes like cloning provide the ultimate method of race improvement and purification... No longer do the disabled, mentally handicapped, or those with diseases or physical weaknesses have to be sterilized or shut up in institutions — instead they can now be eliminated in the earliest stages of their lives, when they are unprotected embryos... it is no surprise that the same organizations that funded eugenics research in the early half of the 20<sup>th</sup> century have funded the research into and advanced the use of embryo selection and the application of many other biotechnologies...

The success of the Population Firm may soon be its own downfall... European populations are literally beginning to die off and their governments, previously supportive of the population control movement, are suddenly encountering a host of new social problems, such as disproportionate levels of the elderly and labour shortages. Developed countries are beginning to realize that the Population Firm has swindled them out of their greatest resource: people... the efforts of the Firm may have completely backfired — their propaganda has led many of the populations that eugenicists would consider part of the 'superior' class of humanity on the road towards extermination through minimal fertility rates... At the same time... countries in the third world continue to resist the full implementation of the Firm's population programs. Thus, because the birthrate of the developed nations has decreased so rapidly while that of the undeveloped nations has decreased by less, the poor ethnic populations of the world now seem more likely to outgrow those in the wealthier developed nations than when the eugenics movement began its efforts at the beginning of the 20<sup>th</sup> century... The lack of food shortages and population problems that they promised have not happened... The evidence has begun to produce results... Congress first set limits on population control activities in 1998... The developing nations themselves are beginning to strongly resist foreign interference in their affairs and are beginning to see through the predatory policies of the Population Firm... It is up to each and every individual to do what they can to make sure that in this new century man's common sense and respect for human life will prevail over the ignorance of the 'scientific racists' to finally lay Malthus to rest."

## COLLEGE FRESHMAN - TAKE NOTE

by Matthew Nelson

The college experience launches each student into a complex array of new ideas, new freedoms and new responsibilities. Within the classroom (and without) many of your most cherished ideals and traditions will be challenged. Often this challenge is of a positive nature. The ability to analyze and critique one's own values and ideas is central to what was traditionally called 'Liberal Education.' However, the aforementioned challenge can only remain constructive if those charged with the duty to instruct also, in a Socratic way, care for the souls of their students. Unfortunately, on too many campuses, misguided professors and their like-minded acolytes within the student body seek not the enlightenment but the indoctrination of others. Their doctrine is **secular humanism**.

The secular humanist doctrine is one that seeks to remove both religiosity and objectivity from intellectual and moral pursuits. Secular humanists believe that morals and values are not objectively given but are derived subjectively from human consensus or individual initiative. Many proponents of secular humanism sincerely believe that their doctrine will bring about a more rational and compassionate society. However, many of these so-called 'humanists' seek expedient rather than truly humane solutions for life's most pressing problems. This is seen most clearly when they confront so-called 'Life' issues.

Anytime a secular humanist speaks about matters such as abortion, euthanasia or embryonic stem cell research they will attempt to stress their 'compassion' and 'rationality.' They will ask a pro-lifer, "What if your loved one had Alzheimer's disease? Wouldn't you want to use embryos (that will be discarded from fertilization clinics anyway) to be used to save your family member?" Perhaps they will ask, "What if your mother was stricken with incurable cancer? Wouldn't you want her to enlist a

doctor's assistance so that she could die with dignity and avoid more suffering?" Finally a secular humanist may wonder, "Shouldn't every child born be loved and wanted? Don't they deserve to avoid being put into an abusive or extremely impoverished situation?" This is the modus operandi of a secular humanist, to make those with whom they disagree feel somehow ignorant or cruel.

Although you may not engage in overtly pro-life activities, you have the right to defend yourself when maligned and the obligation to protect the truth. The truth is that the pro-life philosophy is the most fully rational and compassionate philosophy one may possess. It is only the pro-lifer who seeks to promote the well-being of all women, both born and unborn. It is the pro-lifer who seeks to protect the weak from the powerful seeking to maximize profits via the growth and harvesting of human life. Finally, it is the pro-lifer who sees dignity and worth in every life, no matter how aged or infirmed. You are the loving and intelligent citizens who understand the difference between a quick fix and a solution. You are the ones who realize that suffering does not negate love but increases it; it does not blunt reason but sharpens it as we seek remedies that respect the dignity of all.

As you will begin to notice, the pro-life philosophy is a minority opinion on the majority of college campuses. Many of you will be sneered at and slandered when you offer your take on the array of 'Life' issues facing our world. The forces working against a 'culture of life' may see you as ignorant, backwards and lacking empathy. It is, however, secular philosophy that fails to be truly compassionate or reasonable. It is a costume party at which abject emotionalism and selfishness masquerade as virtue. Remember that you are lamps in an oft-darkened world; let the truth that you hold within your hearts and minds burn brightly. And as a recently departed hero of mine repeatedly stated, "Be not afraid!"

### MEET SR. DOROTHY

Sister Dorothy Rothar, C.S.J. has for the last seven years been a sidewalk counselor, often in conjunction with Msgr. Phillips J. Reilly of "Helpers of God's Precious Infants". The Franciscan Friars of the Renewal, led by Frs. Andrew Apostoli and Benedict Groeshel, received their training from Sr. Dorothy.

Now Sister needs help. The Right to Life group that had been helping her can no longer do so. Hopefully, you will decide to financially assist her. If you have any questions or suggestions please call Sister at 718 399-8166.

### *Let Sister Walk for You. Let Sister Talk for You.*

If you help you will be rewarded! Be prepared on judgment day to see a group of happy children running in your direction.

**LINK BETWEEN INDUCED ABORTION AND LATER PREMATURE BIRTHS.**

A study published in the *British Journal of Obstetrics and Gynecology* provides evidence of a link between induced abortion and later premature births. Dr. Caroline Moreau's study of 2,219 women with babies born at less than 34 weeks and 614 women with full term births, shows those who had an abortion 40% more likely to have premature birth, with the risk of an extremely premature baby raised by 70%.

### LIFE FACTS

"LIFE FACTS" is a new brochure developed by your LI Coalition for Life. You will find a copy of this interesting, quick-read inside. LIFE FACTS is designed to provide a brief overview of several pertinent and timely pro-life issues, including stem cell research, right to die, and the tragic fallout of Roe v. Wade.

Once you have read the brochure you will want to get this important information into the hands of teachers, clergy, voters, teens...just about everyone! Here are some ways to spread LIFE FACTS: place in your church pamphlet rack and religious goods stores, hand out at your clubs and associations; insert it into your newsletter or church bulletin; and bring to a youth group meeting. Do you know someone who works at a retail store that would place some of the pamphlets near the checkout counter?

The LICL is currently offering up to 100 copies for the cost of postage only. To receive 1-2 copies, send a self-addressed stamped envelope to the LICL. For 3-10 copies, send \$0.85; 11-25 copies, send \$1.50; 26-50 copies, send \$2.50; and for 51-100 copies, send \$4.50. Call the LICL at 631-243-1435 for larger quantities. Thank you for your help and support.

[ Note: This is a tri-fold pamphlet -fold it so that the baby photo is in the front and the Life Issues IQ is on the back. ]
