Long Island's Monthly Pro-Life Newsletter

Post Office Box 223, Ronkonkoma, NY 11779 • 631-243-1435 • [www.ProLifeLI.org](http://www.ProLifeLI.org)

Volume 34 No. 6

2007 **June** Issue

Subscription \$18.00 Annually

## WE NEED YOU

### To Renew Your *Life News* Subscription.

Each June we ask each recipient of *Life News* to make a subscription donation to offset our annual printing and postage costs of over \$55,000.00.

Due to increasing postage and printing costs we are suggesting an annual subscription donation of \$18.00. If you have not sent in a subscription donation in the last twelve months, please use the coupon on page 11 and the enclosed envelope to do so **now**.

We do not want to stop sending *Life News* to any of our current readers but we **need your help** if we are to continue.

If you cannot afford to donate but wish to continue receiving *Life News*, or if you wish to **cease** receiving *Life News*, please so indicate on the coupon and return it to us.

*Thank you for your support!*

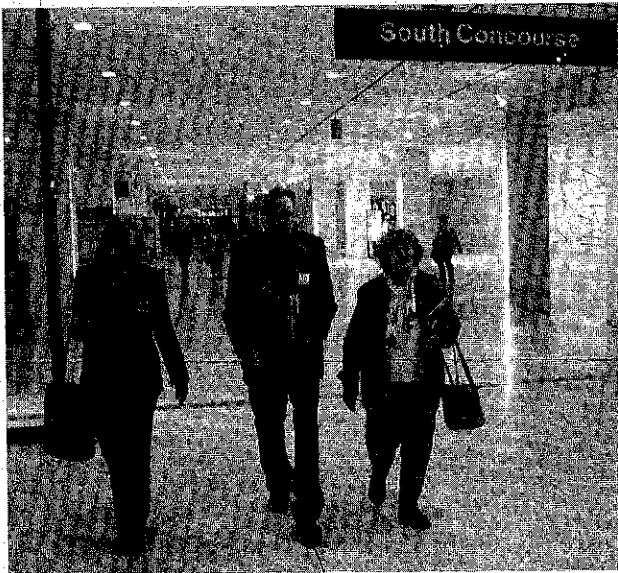

*P.S. Please also support our advertisers whose ads help pay for Life News.*

*Life News-2-June 2007*

Dear Fellow Defender of Life,

As you undoubtedly know by now the U. S. Supreme Court upheld the ban on partial-birth abortions. Though we know babies will continue to be killed, the Court has taken the first step toward recognizing the humanity of those babies that abortion is destroying. And don't believe public opinion didn't influence the Court's decision. Polls show that a substantial majority of Americans abhor the brutality of sucking the brains out of a nearly born child. Of course other forms of abortion are just as brutal and as painful for the babies being killed. It is up to us pro-lifers to keep educating ourselves and those capable of influencing public opinion or passing legislation so that ultimately all babies in the womb are protected from the barbarity of abortion.

Which gets me to *Life News*. As the cover announces, this is *Life News* renewal month. *Life News* is our vehicle for informing not only active pro-lifers but also media persons, educators, clergy of all denominations, and legislators and political figures at all levels of government. All receive copies of *Life News* every month. We also distribute over 1000 copies of *Life News* each month, upon request, to numerous schools and churches.

*Life News* is the most expensive ongoing project of your Long Island Coalition for Life. Loyal advertisers and subscribers supply a major chunk of the cost of *Life News* but nearly half still needs to be made up out of general funds. Those same general funds are also needed each year to pay for our several lobbying bus trips to Albany (three of our intrepid lobbyists are pictured here on Lobby for Life Day), our Oratory Contest, signs for several public witness events, literature for numerous street fairs and other venues, and pro-life advertisements in college and weekly newspapers.

We are dependent on you, our loyal readers and contributors, to keep up our life-affirming work, key to which is *Life News*. The Supreme Court decision is one of many signs that the pro-life message is getting across. *Life News* is the major carrier of that message to Long

Islanders. Your continuing support is crucial if we are to achieve a pro-life-voting majority to reverse anti-life laws. Please at least make the \$18.00 subscription donation. If possible, send a bit more to help us close the funding gap. If you are a business person or professional, please advertise in *Life News* (see page 10 for more information on advertising). If you've been thinking of subscribing or taking an ad, **now's the time, please don't wait any longer.**

Thank you for your financial and prayer support of pro-life work on Long Island.

For His innocents,

Jerome B. Higgins DVM  
Chairman

P.S. We had to reduce our circulation by nearly 2000 copies per month last year to make ends meet and hope further reductions won't be necessary. Please use the coupon on page 11 and the enclosed postage-paid envelope and please mail your best subscription donation **as soon as you can** so we can continue to spread the pro-life word to as many people as possible.

## FEDERAL LEGISLATION

### GOOD NEWS FOR THE UNBORN

At 10:20 A.M. on 4/18/07 Justice Anthony Kennedy spokesman for the majority opinion announced that the U.S. Supreme Court upheld the law banning partial-birth abortions which had passed both houses of Congress and had been signed into law by President Bush. America's crusade for safeguarding the lives of the pre-born has, thank God, succeeded in achieving a milestone—the beginning of the restoration of the unborn's right to Life. Prayers and hard work are still required to bring total justice to the innocent unborn.

**VERMONT'S PHYSICIAN-ASSISTED SUICIDE DEFEATED**—Despite losing 15 seats in the 2006 elections, and euthanasia supporters pouring big money into this “death with dignity” campaign Vermont struck down physician-assisted suicide.

**THANK YOU TO PRO-LIFE CONGRESSMAN PETER KING.** The pro-abortion federal Equal Rights Amendment (ERA) was introduced in the House on 3/27/07 by Rep. Carolyn Maloney (D-NY) with 192 co-sponsors (including Nassau/Suffolk Members Ackerman, Bishop, Israel and McCarthy). Opposed was pro-life Rep. Peter King. That same day the ERA was introduced in the Senate by Senator Edward Kennedy (D-MA.) with 20 co-sponsors (including N.Y. Senators Schumer and Clinton). This ERA is referred to by some as “the Women's Equality Amendment”. Pro-life opposes any ERA that does not contain an abortion neutral clause. The original ERA, also an attempt to enshrine a right to abortion in the U.S. Constitution, died in 1982 after a long struggle waged by Stop-ERA leader Phyllis Schlafly, Eagle Forum founder, and many others.

**ANTI-CLONING BILL S. 1036**— This bill passed the House in 2001 and 2003. However, strong pro-cloning forces in the Senate keep it from passing.

**Action—Sample Message to Senators Schumer and Clinton:** Please support S.1036 sponsored by Senators Mary Landrieu and Sam Brownback to prohibit the use of cloning to create human embryos anywhere in the United States.

## NEW YORK STATE LEGISLATION

Citing the recent Supreme Court decision upholding a ban on partial-birth abortion, Governor Eliot Spitzer promised to implement his campaign pledge to enshrine the “right” to abortion—including late-term abortions—in New York State law, in the event that Roe v. Wade is ever overturned. The bill would enact the “Reproductive Health and Privacy Act” under the Public Health Law. In his 5/04/07 “E-Mail Blast” to his supporters the Governor announced that this bill would “solidify the protections of Roe v. Wade into New York State law...[and] ensure that New York's women have the same or stronger reproductive rights as those currently afforded them under “Roe...”.

Our Governor has again made clear that despite his statement in the “State of the State” message that special interests need to be disarmed Spitzer wholeheartedly supports the agenda of powerful and well funded pro-abortion organizations such as, Planned Parenthood, NARAL, Pro-Choice New York, Family Planning Advocates of New York State and the Center for Reproductive Rights. The executive of the NYCLU said that the “modernization of New York State's abortion law is long overdue and the NYCLU applauds the Governor's leadership in spearheading that process at this critical moment.”

As of the deadline for this column the “Reproductive Health and Privacy Act” has not been introduced. However, this is a great opportunity to convince our elected representatives and voters that there is an urgent need to rewrite state law in order to protect human life.

**ACTION—Sample Message to your NYS Senator and Assembly Member:** Please restore democracy in our state by using your position to ensure that pro-life bills are voted out of committee and debated on the floor. In recent years all bills restricting abortion have died in committee. It is not surprising that N.Y. is referred to as the “abortion capital of the country”. In the recent partial-birth abortion decision the Supreme Court recognized that abortion is the taking of a human life, and that government has a legitimate interest in protecting and preserving this life at every stage. I hope that this decision will lead to a dialogue on abortion.

Please reject the Governor's proposed Reproductive Health and Privacy Act. Please reply. Thank you.

## HEALTH & SCIENCE

### Breast Cancer, The Pill, and Abortion

There are several excellent brochures/booklets available from the Breast Cancer Prevention Institute, 9 Vassar St., Poughkeepsie, NY 12601, (Phone 1-866-622-6237), [www.bcpinstitute.org](http://www.bcpinstitute.org). The brochure titled *If it's not OK for him to take steroids...why is it OK for her?* addresses the dangers of the birth control/morning after pills. It states, "The dangerous performance enhancing steroids taken by athletes are male steroid hormonal drugs that build muscle. One of their risks is liver cancer. Similarly, female steroid hormonal drugs build breast tissue. They not only increase the risk of liver cancer but breast and cervical cancers as well. These powerful steroid drugs are taken by millions of teenage girls as birth control pills."

Young girls have not yet developed the breast tissue components that are more resistant to cancer. Breast tissue has four stages of development: Type 1 lobules develop in puberty as estrogen levels rise and breasts begin to develop; Type 2 lobules can begin to form during puberty as well; cancer-resistant Type 3 lobules form after the 32<sup>nd</sup> week of pregnancy; and Type 4 lobules actively produce milk. Before a full-term pregnancy, the breast is made up primarily of Type 1 and 2 lobules. 95% of all breast cancers start in Type 1 and 2 lobules. After a full-term pregnancy, the breast consists primarily of fully mature, cancer resistant Type 3 lobules.

"Both alone and in combination, the powerful steroids estrogen and progesterone and their synthetic equivalents (estrogen derivatives and progestins) can cause breast cancer through these two mechanisms:

1. They cause the breast tissue to grow which can result in mutations and ultimately cancers. (Cancer results from accumulated mutations in a cell causing uncontrolled growth.)
2. Estrogens can act as direct carcinogens causing cancer cells to form. (There are breakdown products of estrogen (metabolites) which can directly damage DNA, causing mutations and cancers to form.)

Through public media coverage in 2002, women of this country were made aware of breast cancer risk from using HRT (Hormone Replacement Therapy). Although the same type of drugs found in HRT are also found in

birth control pills in even higher doses, their breast cancer risk remains widely unknown by the public.

Many thousands of cases of breast cancer a year are attributable to these powerful steroid drugs. This is because millions of women take these drugs each year."

The brochure *Reproductive Breast Cancer Risks and Breast Lobule Maturation* states that "The 'susceptibility window,' the period between puberty and a full-term pregnancy, is the time the breast is most susceptible to forming cancer; i.e., when the woman's breast is composed primarily of Type 1 and 2 lobules. A woman who has a full-term pregnancy decreases her breast cancer risk. The longer a woman waits before having her first child, the higher her risk because she has a longer 'susceptibility window'. Full-term births cause near complete maturation of the breast to Type 4 lobules therefore lowering breast cancer risk. A pregnancy ending between 32 and 36 weeks has about 90% of the protective effect of a full-term pregnancy of 40 weeks. If the first full-term pregnancy occurs late in the woman's reproductive life, her risk is transiently elevated in the first few years post partum. This is due to mutated cells that may have formed during a long 'susceptibility window,' which then may become cancerous. Cancer cells already present at conception may grow faster under the stimulation of the elevated pregnancy hormones estrogen and progesterone.

Induced abortion of a normal pregnancy during which there has been breast growth results in increased risk of breast cancer in the mother. The later in pregnancy an abortion is done, the higher the risk of breast cancer as the more Type 1 and Type 2 lobules will have formed. Induced abortion leaves a woman with more places for breast cancer to start."

Karin Michels of Brigham and Women's Hospital headed a Harvard University study on breast cancer. She stated that a woman who has an abortion "misses out on the potential benefit she would have had if she had a full-term pregnancy."

Karen Malec of the Coalition on Abortion/Breast Cancer states, "Even the NCI agrees that increased childbearing, starting at an early age, protects women from breast cancer."

All women must be made aware of these facts, most especially young girls. How many times have we been told, "I didn't know...no one told me"?

# Stand Up For Life

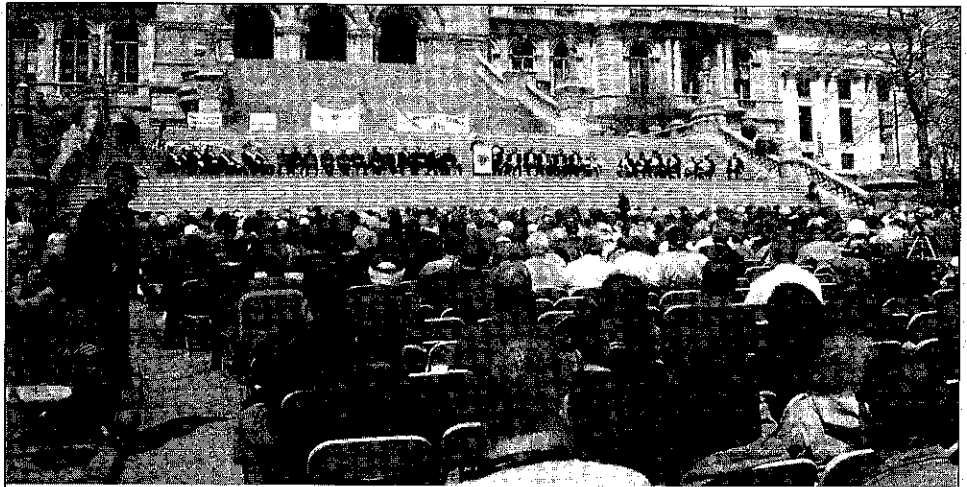

**CELEBRATING 10-YEARS OF L.I.'S  
PRO-LIFE COMMITMENT!**

**Act now - Don't be left out!  
Don't miss the deadline of August 1st!  
Have your name printed on the poster!**

Since many organizations and ministries don't meet during the summer months, the Churches, Knights of Columbus, Hibernians, Columbiettes, Parish Respect Life Committees, etc., were recently mailed STAND UP FOR LIFE 2007 information.

At your June meeting, please discuss and act upon having your group's name added as a supporter on the STAND UP FOR LIFE 2007 flier/poster. For more information, please call Ann Cook at 631-754-9141. Also, please consider calling Ken Reilly at 516-367-3724 to have your group assigned a specific location to be witnesses for life at:

**STAND UP FOR LIFE  
Sunday, October 7, 2007  
2:00 - 3:30 p.m.  
Huntington, New York**

NYS Knights of Columbus Prayer Rally at the Capitol, in Albany, on 4/24/07.

## 41<sup>st</sup> Annual Hispanic Day Parade Sun., June 3 - 12 Noon

5<sup>th</sup> Ave., & Entenmann's Way  
Brentwood, NY

Pro-Life groups, families and individuals are invited to march with the pro-life float.

For information/meeting location call Fran Yellico 631-471-4436.

**All Welcome.**

We encourage the reproduction and distribution of all contents of *Life News*. Credit must be given to *Life News* and to other sources when noted. Call month prior to order extra copies of *Life News* for churches, bookracks, and display tables.

### Suggested Activities to Stop Abortion – “I can do that!”:

—Be more informed about abortion from internet sources such as: www.ProlifeLL.org or call to order “*Abortion: Question and Answers*” by Dr. & Mrs. J. C. Willke, \$6.95 plus \$3 S/H. (Hayes publishing, 513-681-7559).

—Remind your pro-life organizations, etc. to beware of photos with pro-abortion politicians regardless of the occasion.

You can bet these will be printed in local papers to gain community support for the candidate prior to Election Day.

HAPPY FATHER'S DAY

## You're Invited!

Come join us on Monday, June 25 at 8:00 p.m. to hear our guest speaker, Marga Regina, a chastity and abstinence speaker. Marga's topic will be "The Role of Chastity in the Pro-Life Message." She has made presentations in both private and public middle and high schools on Long Island and is the former director of the Massapequa office of the Life Center of Long Island. She and her husband Michael are the proud parents of soon to be one-year-old Marianna.

The presentation will take place at the Joseph Barry Knights of Columbus Hall, 45 Heitz Place, Hicksville. For directions, call LICL at 631-243-1435. All are welcome!

Another month, another bunch of good pro-life letters to the editor, many stimulated by the Supreme Court's decision upholding the ban on partial-birth abortion. Congratulations to successful letter writers **Richard Lamb** and **Peg McHale** in *The Long Island Catholic*, **Anne Leonardi** in *Newsday*, **Mari Lou Hernandez** in *The Tablet*, **Daniel Basil Kerr** in *The Village Times Herald*, **Celeste Broyles** in the *East Meadow Herald*, **Alice Lemos** in the *New York Post*, and **Thomas E. Dennyly** in both *Newsday* and the *New York Post*. Keep up the pro-life letter writing and please send us any that are published.

## Street Fairs

The 2007 street fair season started for the LI Coalition for Life with our booth at the Lindenhurst fair, May 5th. We had more than the usual number of teens and preteens looking at the fetal models. This story is one of the positive ones, though it unfortunately came about from a very sad event.

Three young teenage girls were looking at the models and when they saw the life-size four-month old fetus, one girl said, in disbelief, my friend (age 16) just had an abortion and her baby was four months. After talking with them for a couple of minutes, the girls ran off to something else at the fair. However, awhile later, they returned, this time with two boys and three more girls. The first girl points to the 4-month old model and tells her friends that's how old the baby was [who was aborted]. This provided another opportunity to hand out pro-life info and talk with the group. Much later, one of the girls returned again with yet another friend, points to the model, and referring to the abortion, said that's how big her baby was.

We ache for the 16 year old whose baby is gone too early. At least we were able to use that to educate others, steering them to a pro-life solution for unintended pregnancies.

## LICL Greet & Teach at Planned Parenthood of Nassau County's Annual Gala

Pictured are some of more than a dozen pro-lifers who lined the entryway to Planned Parenthood of Nassau County's (PPNC's) gala dinner and auction event at Bethpage State Park on May 4th. We were able to educate PPNC donors who don't know about or want to ignore PPNC's deadly agenda. Many golfers were likewise enlightened.

### *"A Horrendous Statistic"*

—"The fact that 39% of all abortions are performed on Black women is a **horrendous statistic**, especially since we are only 12%, and declining, of the American population," said Mary Craft of Forestville, Maryland, at the Black Women "Stand for Life" National Press Conference at the National Press Club, on 2/02/06, in Wash., D.C. Source: National Pro-Life Religious Council, Inc. newsletter. Spring 2006.

—More than 13 million African American babies have been killed since abortion was legalized in 1973.

Source: [www.blackcatholicsforlife.org](http://www.blackcatholicsforlife.org) 5/2005.

—About 1,200 African-American babies are killed by abortion in the United States every day, and,

—A disproportionate number of the nation's abortion clinics are located in low-income and minority neighborhoods, where a majority of African-Americans live. Source: BAL brochure
